

Mirage Patio Awning

Stylish and Functional Shading System

The MIRAGE patio awning features a fully enclosed aluminum cassette with spans up to 21' wide and a 12' extension.

- Expansive fabric options from Sunbrella® and Recasens®
- Self-contained support arms built into the awning housing eliminates the need for external poles or brackets
- Adjustable pitch for ideal sun protection

Product Parts

Case - 6063 painted aluminum

Mounting plate - 6063 extruded aluminum with french cleat for easy hanging

Fabric - Durable solution dyed acrylic

Arms - 6063 aluminum, painted to match: Black with Black Cassette, Satin with White Cassette

Electronics - Somfy® 110V AC tubular motor with integrated remote control, wind sensor

Technology

Sol-Lux awnings utilize Somfy® line voltage and battery-powered RTS motors for smooth and reliable operation and offer a range of convenient controls including the Somfy app when adding the Somfy TaHoma Hub.

Product Options

Circuit On Board (COB) LED lights. Available in 2700K or 6000K.

Vertical-striped fabrics create captivating visual appeal when viewing from the patio.

Simplify installation with left or right side motor placement to ensure seamless alignment with electrical outlets.

Case color is available in black or white.
